Features and Benefits of Hanut 2 post racks/ telco racks/ relay racks:

Superior strength, rigidity & weight bearing capacity

- o Pillars made of 2.5mm mild steel and foot of 4.0 mm mild steel
- o All welded construction
- o Manufactured using Murata CNC turret punch press machine
- o Floor bolting kit (standard feature) and side wall bracing kit (optional) for additional stability

Hanut 2 Post Racks are easy to use

- o Ships fully assembled with floor bolting kit and equipment mounting hardware set
- o Individually marked U-mounting heights aids in quick installation of equipment
- o (Optional) Quick setting cement kit for floor bolting

Cable Management

- o Smooth rubber lined cable routing holes along the sides
(see product image gallery at www.hanut-india.com)
- o Wide range of cable management accessories: Cable loops, cable ties, horizontal and vertical cable managers etc.
- o Cable loops can be mounted on the side, front and rear of the pillars

High Quality Finish

- o Polyester powder coat finish
- o Color: Textured black (premium), Textured grey (standard)
- o For additional / superior protection against rusting and corrosion foot of the 2 post racks are zinc plated prior to coating.

Quality Assurance:

- o Manufactured by Hulasi Metals Pvt. Ltd. (an ISO 9002 certified company) with annual sales close to Rs. 100 million from precision sheet metal enclosures, racks and related items.

Power Distribution & Management Facilities in Hanut 2 Post Racks

- o Modular vertical power distribution unit with one to five 6 points 1200W sub-units. Each sub-unit has a master on/off switch with power indicator, over current and surge protection
- o Sub-units can be easily attached (and removed) to the modular vertical power distribution unit. So that the number of power sockets can be increased from 6 to 30 as per requirement.
- o One SS stud is provided on each pillar for grounding / earthing purposes.

Rack Mount Server Mounting in Hanut

- o Rack mount servers and other 19" mounting equipment requiring 2 post mounting can be installed on Hanut 2 post racks.
- o Rack mount servers requiring 4 post mounting can also be installed on Hanut 2 post racks using special (optional) 4 post mounting brackets.

Hanut 2 Post Rack Accessories

Accessories supplement the Hanut 2 post rack / telco rack/ relay rack in enhancing the security, serviceability, manageability and reliable functioning of installed networking equipment.

In addition to all common accessories like shelves, power distribution unit etc. Hulasi offers many special accessories for its 2 post rack / telco rack/ relay rack e.g. - Side wall bracing kit, Quick setting cement kit for floor bolting, Modular power distribution units (PDU) etc. to best meet customers' requirements. We at Hulasi are committed to offering improved and new accessories.

Increased stability & security --Side wall bracing kit --Quick setting cement kit for floor bolting	Power distribution units (PDU) --6 socket 1200W 2U horizontal (PDU) --Modular vertical PDU with 1/2/3/4 or 5 1200Watt 6 socket sub-units
Shelf --1U 10" deep cantilever shelf --2U 18" deep cantilever shelf --Anti skid equipment strap --Modem tray --Four post mounting brackets	Cable management --Cable ties (set of 25) --Cable loops (set of 5) --1U horizontal cable manager --2U horizontal cable manager --32U long vertical cable manager
Equipment mounting hardware (Cage nuts & screws) --Set of 50 --Set of 100	Earthing / grounding Copper bar
Blanking panel set (1 panel each of 1U, 3U & 5U height)	Patch panel 10/100 MBPS 24 ports

Four post mounting brackets allow rack mount servers and other IT products requiring 4 post mounting to be installed on Hanut 2 post rack.

Modular vertical PDU: 6 socket 1200W sub units can be easily attached (removed) to the main unit. In Hanut's modular number of power sockets per vertical PDU can be increased from 6 to 30 as per requirement.

Hanut India strongly recommends that you bolt/ fix the 2 post rack to the floor using the supplied bolt down (foundation) screws.
